

Colostrum[®] Pet

Higher functional value
for your pet food.

More competitiveness
for your brand.

Probiotic for intestinal modulation
and systemic health in dogs.

biocamp[®]
In favor of life, naturally.

Colostrum® Pet is a probiotic additive that promotes intestinal balance and supports gut health in dogs of all ages.

Proven benefits:

- 🐾 reduction of undesirable microorganisms (*Clostridium* spp., *E. coli*);
- 🐾 modulation of the intestinal microbiota;
- 🐾 positive effects on dogs' overall health.

Key benefits for the industry:

- 🐾 exclusive spore-forming strain of *Bacillus subtilis*;
- 🐾 post-extrusion application;
- 🐾 easy incorporation via pellet coating oil or liquid additives applied post-extrusion;
- 🐾 ideal for premium and super premium pet food lines;
- 🐾 enhances the functional value of the feed, contributing to the technical differentiation of the final formulation.

Commercial value for your brand:

- 🐾 market differentiation;
- 🐾 functional benefits for intestinal health;
- 🐾 premium positioning;
- 🐾 higher perceived value by pet owners;
- 🐾 contributes to customer loyalty.

Industrial application

Dosage: 200 g per ton of feed.

How to use: add to pellet coating oil or post-extrusion liquid additives.

Guaranteed levels:

Bacillus subtilis..... 1,0 × 10⁸ FCU/g

Commercial packaging

10 kg bags.
